In the following resource guide, learn about the financial assistance options for senior care and senior living in your state, what benefits the different programs offer, who is eligible, and how to apply.

Financial Assistance for Senior Living & Senior Care

About 21% of Maine's population are seniors aged 65 or older, and many of them will likely need long-term care at some point. Long-term care includes medical and non-medical personal care that helps aging adults safely live in their homes or long-term care facilities.

Older adults on fixed incomes may struggle to cover their senior living and care costs. Seniors often need long-term care services to ensure their continued health and safety. Whether they receive these services in their homes or a residential care setting, Maine offers programs to help seniors pay for services they need but may not be able to afford.

Medicaid

Seniors aged 65 or older may qualify for MaineCare, Maine's Medicaid program. MaineCare may help cover long-term care costs, including rooms, nursing care, food, routine supplies and equipment provided in nursing homes or assisted living services supplied in adult family care homes. Seniors seeking long-term care in their homes may qualify for a Home and Community-Based Services waiver.

Seniors over the income or asset limits may still qualify for MaineCare but have a deductible based on their income. The Department of Health and Human Services, Office for Family Independence processes MaineCare applications and determines eligibility. However, the Office of MaineCare Services administers the program once you're enrolled.

Home and Community Benefits for the Elderly and Adults with Disabilities

Home and Community Benefits for the Elderly and Adults with Disabilities provides a full benefits package for seniors who don't live in institutional nursing facilities. It offers in-home care and other services designed to help seniors safely remain in their homes or other residential community settings. Services may include assistive technology devices, personal care services, environmental modifications, homedelivered meals, home health services and transportation services, among others. However, services are subject to funding availability.

How to Apply

The Maine DHHS Office of Aging and Disability Services administers HCB for the Elderly. Seniors should complete an Application for Long-Term Care MaineCare, which they may do online through My Maine Connection or in person at their nearest district DHHS office. DHHS or the Assessing Services Agency, the Department's authorized entity, must conduct a Medical Eligibility Determination assessment to establish eligibility for HCB services. Seniors aged 65 or older must require the level of care provided in a nursing facility as indicated in the medical review. DHHS or an agency it works with must approve an Individual Plan of Care. HCB has a limited number of spaces. Eligible seniors can't receive a home and community benefits package until an opening becomes available. Seniors needing help completing their application may call the OFI at (855) 797-4357.

Eligibility

To be eligible for services under the HCB, seniors must:

- Be over the age of 65 or blind or disabled
- Meet the general MaineCare eligibility requirements
- · Be a resident of Maine

- Not have their health and welfare endangered by receiving services in the home or community

To be eligible to receive care under this waiver, applicants must have a permanent or chronic disability or functional impairment that interferes with their ability to maintain self-care and daily living skills without assistance. Recipients wanting to exercise the Participant-Directed Option to direct their own services must have the cognitive capacity to self-direct their attendant(s) as assessed by the ASA and determined by MED findings.

Medicare

Original Medicare consists of Part A, which covers services provided on an inpatient basis, and Part B, which covers outpatient services. For example, Part A covers nursing care provided during a hospital stay, while Part B covers things like doctor visits and durable medical equipment.

How to Apply

To apply for Medicare online, visit the Social Security Administration website and fill out the form. You can also apply by telephone or in person. Call (800) 772-1213 to speak with a representative or use the online locator to find a Social Security office near you.

Eligibility

To receive Medicare benefits, you must be at least 65 years old or have a qualifying disability or end-stage renal disease. Everyone pays a premium for Part B, but you may qualify for premium-free Part A coverage if you or your spouse worked and paid Medicare taxes for at least 10 years.

Medicare Advantage

Original Medicare is managed by the federal government, but Medicare Advantage Plans are sold by private insurance companies. Each plan must offer at least the same amount of coverage as Original Medicare, but many insurers offer extra benefits to make their plans more attractive to consumers.

How to Apply

Use the Find a Medicare Plan tool on Medicare.gov to compare Medicare Advantage Plans in your state. When you're ready to enroll, call (800) 633-4227 or contact the plan provider directly.

Eligibility

If you're eligible for Original Medicare, you are likely eligible for Medicare Advantage; however, confirm eligibility requirements with the plan provider.

Medicare Part D

Original Medicare doesn't cover most prescription drugs, so you may want to enroll in Medicare Part D, a supplemental plan that pays for a wide range of medications. Each plan has a formulary that explains how much coverage is provided for each type of drug. Most Medicare Advantage Plans include prescription drug coverage, and you can't enroll in Medicare Part D if you have a Medicare Advantage Plan that pays for prescription medications.

How to Apply

Use the Find a Medicare Plan tool on Medicare.gov to find a plan that meets your needs. When you're ready to enroll, contact the plan directly for instructions on applying for coverage.

Eligibility

To qualify for Medicare Part D, you must be enrolled in Medicare Part A and Medicare Part B (Original Medicare) or one of the few Medicare Advantage Plans that doesn't cover prescription drugs.

Medicare Savings Programs

If you have Medicare, you may qualify for a Medicare Savings Plan or Buy-In. Depending on your income, MaineCare may pay for Part A and/or Part B premiums, Medicare deductibles and coinsurance or copayments. There are three Medicare Savings Programs in Maine:

- **Qualified Medicare Beneficiary:** This MSP helps pay for Medicare Part A/Part B premiums, Part A/Part B deductibles and Part A/Part B coinsurance.
- **Specified Low-Income Medicare Beneficiary:** The SLMB program helps pay Medicare Part B premiums.
- **Qualified Individual:** The QI program also helps participants pay their Medicare Part B premiums, but it has higher income limits than the QMB and SLMB programs.
